#### ANNOUNCEMENTS.

We are authorized to announce LUCIUS DILLS as a candidate for Justice of the Peace for Precinct No. 1, subject to the will of the voters as expressed at the polls.

We are authorized to announce A. J. WELTER as a candidate for Justice of the Peace for Precinct No. 1, subject to the will of the voters as expressed at the polls.

Attend the mass meeting at the Court House Friday night and take an interest in selecting a candidate for Justice of the Peace and a candidate for constable.

Although the contestant from Roswell in the oratorical contest at Albuquerque did not succeed in winning one of the three prizes, he was highly complimented for his work and the training and skill with which he handled his subject. Better luck next time.

Andrew Carnegie in his testimony before the House Committee on Tariff Revision stated that the steel industry was no longer in the infant stage and did not require any kind of protection from any one, and further that tariff duties on steel products worked good for no one but did an injustice to the consumer. Andy talks like a good Democrat.

Southern Italy and particularly the island of Sicily has always been, since the beginning of history as we know it, a land under the scourge of great natural calamities. Time and time again has the hand of nature fallen with terrible effect upon the people living in this otherwise lovely land. It is probable that the disaster of this week exceeds all that have gone before and yet the news can never describe the frightful and horrifying results of the upheaval of Mother Earth.

The material and moral growth of Roswell and Chaves county depends on but one thing: the people of the City of Roswell and of Chaves county. We are located in a country with an unsurpassed soil for fertility and productive power; we have a climate that is deservedly becoming famous throughout the United States, and in probably no other section of America does there exist today such a land of opportunity and promise as the Pecos Valley, hence it is up to the people. Get busy along right lines and results unforeseen a few years ago will materialize.

The Associated Press yesterday showed what it could do in the way of securing news. The great earthquake in Southern Italy and the island of Sicily, killing thousands of people and literally wiping out cities and villages by the scores, was something that could not be foreseen and for which no preparation could be made. Yet the reports brought to the Record by the greatest news-gathering organization the world has ever had, were complete and told of the great catastrophe in a manner that placed it before the readers of the Record, graphically and clearly. The cost of such work must have been enormous running into many thousands of dollars, yet our readers secured it all for the insignificant sum of fifty cents per month.

#### SKULL OF CHILD FOUND BURIED IN THE STREET.

While digging to lay the water main in front of the new city water power house on east Alameda street, near the railroad, laborers yesterday found the skull of a child. The bones of the entire skeleton were there also, but were too badly decomposed to save. O. A. Gafford, who was in charge of the work, brought the skull to the Record Office and a reporter had it viewed by some of the professional men of the city. A dentist examined the teeth carefully and pronounced it the skull of a child about eight years of age, the development of the second teeth, pushing out the child teeth, proving his theory as to age. The shape of the skull shows that it was that of a white child. A number of the old timers were consulted but none knew anything of the burial of a person in the present site of east Alameda street, further that the fact that there were several graves scattered up and down the Hondo when

move them to the livery stable at the expense of the owner or driver.

We are trying to make Roswell a safer and better place for life and property and a cleaner, better place in which to live. We want the help of all the good people and all should give attention to this in view.

We trust as the new year begins that it will not be necessary for peace officers to act in this matter or for the Mayor of the City to again call attention to the condition.

Respectfully submitted,  
G. A. RICHARDSON,  
Mayor.
